DMI Data Modernization INITIATIVE

Data Modernization Workshop: Connect, Ignite, Act | September 12-14, 2023
Resources from Campfire session: Traversing the data modernization partner landscape

Organization	Offering	Target Audience	Type of Engagement
Public Health Informatics Institute (PHII) - A program of the non-profit organization, the Task Force for Global Health, and an affiliate of Emory University

MISSION: Advance health outcomes worldwide by guiding public health organizations to effectively access, use and share information through the application of current and innovative technologies.

https://phii.org/data-modernization-initiative/

Contact: Sarah Shaw, sshaw@taskforce.org | DMI Stories from the Field is an opportunity to tell your stories. | Targeted to epidemiologists and public health informaticians working at state, tribal, local and territorial (STLT) health departments

CDC and policy makers are a secondary audience | Articles, podcasts, and videos posted on our website

Collaboration with CSTE

Recruiting two more jurisdictions to tell their story |
| | Data Modernization Workshop is a three-day virtual event | Targeted to DMI directors and their teams from the 64 jurisdictions directly funded for DMI efforts by CDC

Open to anyone within state, tribal, local and territorial public health agencies, as well as designated partner organizations | Registration required and limited to 10 people per organization.

Recordings and slides will be available to all who registered through May 2024.

Maker sessions are invite only component open to 2 staff from the targeted 64 jurisdictions. |
| | Data Modernization Initiative (DMI) Learning Community is an online community. | Targeted to DMI directors and their teams from the 64 jurisdictions directly funded for DMI efforts by CDC

Open to anyone within state, tribal, local and territorial public health agencies, as well as designated partner organizations | Registration required.

Monthly meetings, periodic small group discussions, and an online collaboration space.

Presentations from the community on data modernization topics. |
